

Growing Confidence and Self-Esteem

Contrary to some people's believe that you are either born to be confident or not, confidence is a skill that can be learned. It can be practised, bettered, honed, and made even stronger - all with just a little bit of knowledge, time and effort. Once you master it, everything in your life will change for the better.

Confident people are admired by others and inspire confidence in others. They face their fears head-on and tend to be risk takers. They know that no matter what obstacles come their way, they have the ability to overcome them. Confident people know their worth. They tend to see their lives in a positive light even when things are not going so well and they are typically satisfied with and respect themselves. Wouldn't it be amazing to have this kind of confidence and self-esteem every day of your life? Guess what? You can.

The Growing Confidence and Self-Esteem workshop is designed to help you to achieve this goal.

This **one-day workshop** will be delivered by Zoryna O'Donnell, MBA, FInstLM - an experienced coach and trainer, a Master Practitioner of Neuro-Linguistic Programming (NLP) and a Specialist Practitioner in Neuro Hypnotic Re-patterning (NHR). The workshop will cover the following key elements:
